Vyve Broadband Names Ashton Cox McGehee Teacher of the Month for December

McGehee Voters Honor Community's Outstanding Teacher

McGehee, AR (January 8, 2018) — Vyve Broadband is thrilled to announce Ashton Cox, fifth grade teacher at McGeehee Elementary School as the December Teacher of the Month in their annual program honoring outstanding teachers in the community.

The Vyve Teacher of the Month program recognizes teachers who have proven to be champions of the classroom and stewards of their community through their teaching, mentorship and leadership. Cox was chosen by McGehee residents through an online voting process.

"We believe it's essential to recognize the work of outstanding teachers in every community we operate, to share their experiences, and to support them in their growth," says Diane Quennoz, Vyve SVP, Marketing and Customer Experience. "Many of them are unsung heroes that go unnoticed. Maybe they helped a student earn a better grade, maybe they gave a student encouragement to do better, or maybe they were just there when a student needed to talk. Whatever the reason, we appreciate what they do for our students."

Vyve will continue the program through the end of the school year, inviting the community to visit www.vyvebroadband.com/teacher or www.facebook.com/vyvebroadband to vote for who should be the teacher of the month. Teachers from any public school in McGehee are eligible, Pre-K through High School. They will receive a Vyve Golden Apple trophy and entered to win an iPad for their classroom.

About Vyve Broadband LLC

Vyve Broadband is an innovative company, founded in 2012 serving largely non-urban communities in eight states, including Oklahoma, Texas, Arkansas, Kansas, Louisiana, Tennessee, Georgia, and Wyoming. A technology leader in the cable and broadband sectors, Vyve Broadband offers an extensive range of broadband, fiber connectivity, cable television and voice services for commercial and residential customers. Vyve was formed as a platform to provide the very best next-generation services and features available, combined with a sector-leading customer experience. Residential services include high-speed Internet with speeds up to 1GB, all-digital, high-definition video and fully featured digital voice. Vyve Business Services provides optical Ethernet, PRI and hosted voice services to the business community.
