FOR IMMEDIATE RELEASE

Vyve Broadband Names Laurissa Kovacs McAlester Teacher of the Month for February

McAlester Voters Honor Community's Outstanding Teacher

McAlester, OK (March 7, 2018) — Vyve Broadband is happy to announce Laurissa Kovacs, art teacher at Puterbaugh Middle School, as the McAlester February Teacher of the Month. The annual program honors outstanding teachers in the communities Vyve serves.

The Vyve Teacher of the Month program recognizes teachers who have gone above expectations to create an exceptional learning environment for their students. Their mentorship and leadership are felt throughout their communities and are essential in the success of each student that comes through their classroom. Kovacs was chosen by McAlester residents through an online voting process.

"Teachers play an integral part in every community," says Diane Quennoz, Vyve SVP, Marketing and Customer Experience. "Vyve Broadband is honored to recognize the teachers who make learning fun, challenging and inspiring for their students. We want teachers in every community we serve to know that their students and Vyve Broadband appreciate them and their dedication to making the classroom a place where students can thrive."

Vyve will continue the Teacher of the Month program through the end of the school year and invites the community to visit www.vyvebroadband.com/teacher or www.facebook.com/vyvebroadband to vote for who should be the next teacher of the month. Teachers from any public school in McAlester are eligible, Pre-K through High School. They will receive a Vyve Golden Apple trophy and entered to win an iPad for their classroom.

About Vyve Broadband LLC

Vyve Broadband is an innovative company, founded in 2012 serving largely non-urban communities in eight states, including Oklahoma, Texas, Arkansas, Kansas, Louisiana, Tennessee, Georgia, and Wyoming. A technology leader in the cable and broadband sectors, Vyve Broadband offers an extensive range of broadband, fiber connectivity, cable television and voice services for commercial and residential customers. Vyve was formed as a platform to provide the very best next-generation services and features available, combined with a sector-leading customer experience. Residential services include high-speed Internet with speeds up to 1GB, all-digital, high-definition video and fully featured digital voice. Vyve Business Services provides optical Ethernet, PRI and hosted voice services to the business community.
