Guymon Celebrates 2017 Friday Night Vyve Players of the Week

Vyve Broadband Salutes 10 Honorees From Two Area High Schools

Guymon, OK (December 18, 2017) It was a memorable year of high school football in Guymon, and Vyve Broadband would like to salute all of this year's Friday Night Vyve Players of the Week winners for outstanding performances throughout the season.

The 2017 Friday Night Vyve Player of the Week Team consists of 10 winners from two high schools, Hooker High School and Tyrone High School. The team featured six running backs, three quarterbacks and one wide receiver, and was made up of four seniors and six juniors.

Hooker running back Tanner McBee (Weeks 3 and 5) and quarterback Donovan Yarbrough (Weeks 6 and 7), and Tyrone running backs Jonathan Corrales (Weeks 2 and 10) and Antonio Pacheco (Weeks 8 and 9) each won Friday Night Vyve Player of the Week honors twice.

"We are very proud to be a part of the Guymon community, and to have presented a Friday Night Vyve Player of the Week each week throughout the season," said Diane Quennoz, Vyve SVP, Marketing and Customer Experience. "We'd like to thank the Guymon Daily Herald for partnering with us, and most importantly, we want to again congratulate each of our Friday Night Vyve Players of the Week for 2017.

About Vyve Broadband LLC

Vyve Broadband, founded in 2012, is an innovative company serving largely non-urban communities in eight states, including Oklahoma, Texas, Arkansas, Kansas, Louisiana, Tennessee, Georgia and Wyoming. A technology leader in the cable and broadband sectors, Vyve Broadband offers an extensive range of broadband, fiber connectivity, cable television and voice services for commercial and residential customers. Vyve was formed as a platform to provide the very best next-generation services and features available along with a sector-leading customer experience. Residential services include high-speed Internet with speeds up to 1 Gig, all-digital, high-definition video and fully featured digital voice. Vyve Business Services include optical Ethernet, PRI and hosted voice services for the business community.
