FOR IMMEDIATE RELEASE

Hollie Quintana Wins Vyve Broadband May Teacher of the Month
*McAlester Voters Select Community's Final Outstanding Teacher of the 2017-2018
School Year*

McAlester, OK (June 15, 2018) — Vyve Broadband is excited to announce Hollie Quintana, third grade teacher at Edmond Doyle Elementary School, as the McAlester May Teacher of the Month. The monthly program honors outstanding teachers in the communities Vyve serves who are chosen by McAlester residents through an online voting process.

The Vyve Teacher of the Month program recognizes teachers who have gone above expectations to create an exceptional learning environment for their students. Vyve is honored to recognize the work of teachers in their communities who spend countless hours to continue making learning exciting and challenging.

"As the school year comes to a close for students, Vyve knows that the work continues for many teachers, and that's what makes them so outstanding," says Diane Quennoz, Vyve SVP, Marketing and Customer Experience. "We feel it's important to acknowledge and thank those teachers who go the extra mile to help their students succeed inside and outside the classroom. Whether they spent extra time to help a student understand a concept or were a listening ear to a student who needed to talk, these teachers deserve to be celebrated."

May winners will be presented their awards in September along with any other teacher winners from the previous school year who have not yet been awarded.

Anyone interested in learning more about Teacher of the Month can visit www.vyvebroadband.com/teacher or www.facebook.com/vyvebroadband. Teachers from any public school in McAlester are eligible, Pre-K through High School. Winners receive a Vyve Golden Apple trophy and are entered to win an iPad for their classroom.

About Vyve Broadband LLC

Vyve Broadband is an innovative company, founded in 2012 serving largely non-urban communities in eight states, including Oklahoma, Texas, Arkansas, Kansas, Louisiana, Tennessee, Georgia, and Wyoming. A technology leader in the cable and broadband sectors, Vyve Broadband offers an extensive range of broadband, fiber connectivity, cable television and voice services for commercial and residential customers. Vyve was formed as a platform to provide the very best next-generation services and features available, combined with a sector-leading customer experience. Residential services include high-speed Internet with speeds up to 1GB, all-digital, high-definition video and fully featured digital voice. Vyve Business Services provides optical Ethernet, PRI and hosted voice services to the business community.
