FOR IMMEDIATE RELEASE

**Vyve Broadband Names Dee Smith
Mena Teacher of the Month for May**
Mena Voters Honor Community's Outstanding Teacher

Mena, AR (June 7, 2019) — Vyve Broadband is excited to announce Ms. Dee Smith, Kindergarten teacher at Louise Durham Elementary School, as the Mena May Teacher of the Month. The monthly program honors outstanding teachers in the communities Vyve serves.

The Vyve Teacher of the Month program recognizes teachers who have gone above expectations to create an exceptional learning environment for their students. Their mentorship and leadership are felt throughout their communities and are essential in the success of each student that comes through their classroom. Smith was chosen by Mena residents through an online voting process.

"We're proud to show our appreciation for teachers," says Diane Quennoz, Vyve SVP, Marketing and Customer Experience. "Especially at the completion of another successful school year, it's important to acknowledge the great impact teachers have made on local students. Thank you for your time and efforts this year!"

The Vyve Teacher of the Month program will resume in September 2019. Vyve invites the community to review the entirety of this year's winners at www.vyvebroadband.com/teacher. May 2019 Teacher of the Month honorees will be presented Vyve Golden Apple trophies at the start of the next school year.

About Vyve Broadband LLC

Vyve Broadband is an innovative company, founded in 2012 serving largely non-urban communities in eight states, including Oklahoma, Texas, Arkansas, Kansas, Louisiana, Tennessee, Georgia, and Wyoming. A technology leader in the cable and broadband sectors, Vyve Broadband offers an extensive range of broadband, fiber connectivity, cable television and voice services for commercial and residential customers. Vyve was formed as a platform to provide the very best next-generation services and features available, combined with a sector-leading customer experience. Residential services include high-speed Internet with speeds up to 1GB, all-digital, high-definition video and fully featured digital voice. Vyve Business Services provides optical Ethernet, PRI and hosted voice services to the business community.
