FOR IMMEDIATE RELEASE

**Vyve Broadband Names Amy Helton McGehee
Teacher of the Month for October**

McGehee Voters Honor Community's Outstanding Teacher

McGehee, AR (November 2, 2018) — Vyve Broadband is excited to announce Amy Helton, third grade teacher at McGehee Elementary School, as the McGehee October Teacher of the Month. The monthly program honors outstanding teachers in the communities Vyve serves.

The Vyve Teacher of the Month program recognizes teachers who have gone above expectations to create an exceptional learning environment for their students. Their mentorship and leadership are felt throughout their communities and are essential in the success of each student that comes through their classroom. Helton was chosen by McGehee residents through an online voting process.

"Vyve understands the type of impact great teachers have on students," says Diane Quennoz, Vyve SVP, Marketing and Customer Experience. "Because of teachers who go the extra mile for their students, our communities are a better place. Congratulations to all teachers honored this month. Vyve supports you and appreciates your efforts to make learning fun, challenging and rewarding for all students."

Vyve will continue the Teacher of the Month program through the end of the school year and invites the community to visit www.vyvebroadband.com/teacher or www.facebook.com/vyvebroadband to vote for who should be the next teacher of the month. Teachers from any public school in McGehee are eligible, Pre-K through High School. They will receive a Vyve Golden Apple trophy and entered to win an iPad for their classroom.

About Vyve Broadband LLC

Vyve Broadband is an innovative company, founded in 2012 serving largely non-urban communities in eight states, including Oklahoma, Texas, Arkansas, Kansas, Louisiana, Tennessee, Georgia, and Wyoming. A technology leader in the cable and broadband sectors, Vyve Broadband offers an extensive range of broadband, fiber connectivity, cable television and voice services for commercial and residential customers. Vyve was formed as a platform to provide the very best next-generation services and features available, combined with a sector-leading customer experience. Residential services include high-speed Internet with speeds up to 1GB, all-digital, high-definition video and fully featured digital voice. Vyve Business Services provides optical Ethernet, PRI and hosted voice services to the business community.
