**FOR IMMEDIATE RELEASE**

**Gators' Thomas Castellanos Named  
Friday Night Vyve Player of the Week**

*Vyve Broadband Salutes Ware County Quarterback For Outstanding Play*

**Waycross, GA** (November 14, 2018) — Ware County freshman quarterback Thomas Castellanos was named Friday Night Vyve Player of the Week for his outstanding play in the Gators' 35-7 win over Riverdale Friday night.

Friday Night Vyve, sponsored by Vyve Broadband, recognizes exceptional performances from players on high school teams in Vyve markets each week. Players are nominated by sportswriters who cover their games. They are then recognized through articles in the local paper and social media posts from Vyve throughout the following week.

Castellanos rushed for 140 yards and threw for 130 yards in the team's first round playoff win.

"Vyve Broadband loves supporting and investing in the communities we serve because of the amazing people, schools and teams in these communities," said Diane Quennoz, Vyve SVP, Marketing and Customer Experience. "The Friday Night Vyve Player of the Week honors the player who has been remarkable on the field and has made their community and Vyve proud. Congratulations to this week's winner, Thomas Castellanos! We wish Thomas and the Gator football team our best."

**About Vyve Broadband LLC**

Vyve Broadband is an innovative company, founded in 2012 serving largely non-urban communities in eight states, including Oklahoma, Texas, Arkansas, Kansas, Louisiana, Tennessee, Georgia, and Wyoming. A technology leader in the cable and broadband sectors, Vyve Broadband offers an extensive range of broadband, fiber connectivity, cable television and voice services for commercial and residential customers. Vyve was formed as a platform to provide the very best next-generation services and features available, combined with a sector-leading customer experience. Residential services include high-speed Internet with speeds up to 1GB, all-digital, high-definition video and fully featured digital voice. Vyve Business Services provides optical Ethernet, PRI and hosted voice services to the business community.
